

P-THE JERICHO MARCH

THE VISION

The Jericho March is a very easy activity to perform. Much like Joshua, the idea is very simple. March around a dismemberment factory seven times, singing and praying to God to help us shut-down this very business and that there will be no more baby murdering facilities.

THE ACTION

This is really a very easy activity. First assemble your organization. Then choose a date for the March allowing yourselves ample time for advertising so that you will have a large crowd. You can begin the event by having a prayer service beforehand. The March should be led by a Priest followed by an Honor Guard from the Knights. Praying the Rosary is a good way for all to be praying in unison. Singing can also be introduced. If you are able, it can be a good idea to ask your local Protestant Churches to join you in your March. This can demonstrate how your community can work together for a common goal. If other religions wish to join your March, have non-denominational prayers printed-up so that ALL of the marchers will be able to recite the same prayers. Some of these prayers can be found on this website. A talk or two by fellow Pro-Lifers should also be included in your plans.
